

Fall Tryouts

All players that wish to play on a Paradise Competitive Team (PYL or METRO) in the subsequent summer season will be given the opportunity to tryout at “Competitive Teams Tryouts” in the Fall of the year prior and then again in the spring following the Easter break. Where there may be multiple teams in an age group (eg PYL/Metro), we will operate a combined tryout for all players in that age group (although players may be grouped based on their desired level of play at the tryout).

For competitive Teams there are limited spots available based on maximum roster sizes. We strive to be inclusive but players must be [assessed](#) & meet the required standard in order to be selected.

After the fall tryouts players will be notified of their status, which will be one of the following three;

- Selected: Preliminary PYL Rostered Player (PPP)
 - Players selected to the Preliminary PYL roster (providing they register and pay the base fee) will be named on the final PYL roster provided they are in good standing come the spring. PPP players will not lose their spot on PYL rosters to spring registrants.
- Selected: PYL/Metro Training Pool Player (TPP)
 - Players that are selected as Training Pool Players (providing they register and pay the base fee) will be named on the final METRO roster provided they are in good standing come the spring, and providing the club has sufficient players to field a Metro Team. TPP players may make the final PYL roster in the spring. TPP players will not lose their spot on Metro rosters to spring registrants.
- Not Selected

Selected players must then Register prior to the Fall Registration Deadline (see below) in order validate that selection, which will expire on the registration deadline day. League Fees will not be due until after final rosters are named after the Spring Tryouts. Fall registrants have the option to participate in the Indoor program for an associated supplemental fee. All Fall registrants will be invited to attend the Spring tryouts however they will not be required to pay the tryout fee again in the Spring.

If a player is selected at fall tryouts but then defers base registration until the Spring they will be required to tryout again in the Spring and pay the Spring Tryout Fee, and Spring Registrants will only be offered spots on final rosters where numbers permit.

Spring Tryouts

Spring tryouts will be held in April. Tryouts for specific Premier Youth League Teams may be called during the month of March at the club’s discretion. For both fall and spring tryouts the trialists must complete the tryout registration and pay the associated tryout fee. Any Spring tryout registrants that attends a March tryout is also by default considered registered to attend April tryouts if not selected to PYL in March. The purpose of the Spring Tryouts will be;

- To accommodate Spring Registrants, which will dictate final player numbers at a given age group. Player numbers will dictate the number of Teams we have the capacity to register for Summer League play,

- To Assess Training Pool Players (TPP) along with New Spring Trialists for potential inclusion in final team rosters (PYL and Metro),
- Where numbers allow, we will enter multiple teams within a given age group, we strive to offer multiple levels of play which enables us to assign players to the level that best suits them, which in turn will provide them an environment which optimises;
 - The level of enjoyment from participation
 - The development of the player

Team Selection Timelines
